Guy and I were "New Boys" together at Kemper Military School back in 1980. We spent a lot of late nights prepping for weekly inspections and talking about where we'd rather be. He was such an easy going person and very chill to party with. We shared our care packages from home and looked out for each other. I'm saddened to hear of his passing and will always remember him as my friend. A hui hou buddy.

my name is ty hodge and i worked with guy doing underground work at kaanapali ocean resorts job. guy was not only exceptionally good at his craft but he also was a great teacher and friend. he is the reason that i am still in the union. he taught me when no one else would. no matter how much my hyper personality probably drove him crazy early each morning he continued to teach me the fundamentals. His unwillingness to give up on me made me feel obligated where i couldnt give up on myself. a couple years back when i was working for Ron D on new safeway job , Wasa was doing power for gas station and i got an opportunity to express my gratitude to him for what he did for me. when i heard he had passed it was truly a sad day for me. i will always hold a place. in my heart and my thoughts for a great man and i can atleast be happy that i told him how much my life was changed by him when he was alive. my thoughts and prayers go to his family i will forever be in his debt. i hope that my sharing this brings some comfort to you in these times. just know that when someone you love leaves that they are never gone because they live forever in your memories of how they enriched your life. no one can take that joy away from you.
